### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### IN THE SPECIFICATION:

Page 13, line 17, "as subject matter of the present invention" as been deleted.

### EXAMINER COMMENT

2. Per the applicant's comment, filed on 10/13/06, the substitute specification, dated 6/25/01, has been entered. In addition, the amendment to the specification, filed 10/13/06, is improper because it does not include the **full text of the replacement paragraph** with markings to show all the changes **relative to the previous version of the paragraph**. In order to advance prosecution and to cure the informality noted in applicant's response, the correct section of the specification is amended as indicated above by way of an examiner's amendment.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is 571-272-3020.
